UptimeOne

Reduce cost. Reduce risk. Regain control.

Predictability Means Reliability

UptimeOne is a fixed-cost parts program that stabilizes your budget and maximizes uptime for your engineers.

Stop Unpredictable Parts Spend

Volatile parts invoices and ad hoc sourcing waste time and strain budgets. When imaging equipment is down, patient schedules slip, revenue suffers, and caregivers lose confidence.

Start Focusing on Care

UptimeOne turns parts chaos into clarity. Instead of buying parts on demand, you pay a predictable monthly fee based on your installed imaging assets. In return you get:

UptimeOne keeps your imaging assets ready and your budget under control.

- Guaranteed parts coverage for your covered modalities, without chasing multiple vendors.
- Priority access and fast shipping from one of the largest parts inventories in the industry.
- A single portal and contract so your engineers order, track, and report usage in one place.

How It Works

1 **Assess Your Install Base**
Provide a list of your imaging systems (make, model, quantity, and age).

2 **Model Your Plan**
Tri-Imaging analyzes usage and proposes a fixed monthly fee.

3 **Go Live**
Sign one contract, eliminate sourcing, and start ordering parts through the portal.

What You Get

Fixed-Cost Coverage
- One fee that covers parts for your covered imaging assets, with options to include other modalities as you grow.

Reliable Parts When You Need Them
- A deep inventory of new and refurbished parts, ready for same day dispatch, and next-flight delivery.

Remote Monitoring and Centralized Portal
- Order, track, and manage parts through an easy to use portal that gives your team full visibility and control.

Engineer Training
- AAMI-accredited courses help your team advance their skills and reduce reliance on outside service calls.

Optional Support
- Supplemental service coverage fills gaps during vacations, spikes, or specialized repairs.

Risk Transfer
- Tri-Imaging assumes variability in parts consumption, converting unpredictable spend into a stable line item.

Why Tri-Imaging?

Unmatched Inventory and Logistics
More than 150,000 new and used parts with same day fulfillment and adherence to ISO 13485 quality standards.

Around-the-Clock Expertise
A multilingual support team with a combined 150 years of imaging experience is available 24/7 to answer questions and guide repairs.

Proven Savings becomes Proven Value
Customers repeatedly experience saving time and money with one reliable partner.
